

FIELD COVER

INSTALL INSTRUCTIONS

THINGS YOU WILL NEED

-SPRAY BOTTLE -DISH SOAP -MICROFIBER CLOTH -ISOPROPYL ALCOHOL - SQUEEGEE ^{*INCLUDED*}

- STEP 1** - Prior to installation, clean your Electric Football® field using a microfiber cloth and isopropyl alcohol.
- STEP 2** - Fill the spray bottle with water. Add a few drops of dish soap. Test your spray bottle to ensure that it delivers a fine mist prior to installation.
- STEP 3** - Peel the Field Cover from its backing and place it sticky side up, on top of your Electric Football field. Now spray the sticky side of the Field Cover with the water/soap mixture.
- STEP 4** - Remove the Field Cover from from the Electric Football field. Now spray the field with the water/soap mixture.
- STEP 5** - Align the Field Cover with Electric Football field. Ensure that your cover is straight and will lay flat. If you don't get it the first time, try again. Add more water if needed.
- STEP 6** - Take your Squeegee and starting at the 50 yard line, Squeegee from sideline to sideline. Use overlapping passes, heading toward the first end zone. Wipe up excess water with the microfiber cloth as you go.
- STEP 7** - Repeat the overlapping passes from the 50 yard line toward the opposite end zone.
- STEP 8** - Wipe dry all excess water. Now you're ready to play!
